

## Press Release

### **ABL begins restructuring process as a debtor in possession**

27 June 2023 · Lauf · Business Area: Restructuring

ABL, a medium-sized manufacturer of electrotechnical products, is committed to sustainably restructuring and transforming its activities with the aim of putting the business on a viable footing. To this end, management at ABL filed to initiate debtor-in-possession proceedings with the Local Court of Nuremberg on 26 June 2023. The company will be restructured over the coming months to ensure its long-term market success.

“Our customers will receive their deliveries from us as usual during the proceedings,” said managing director Dr Stefan Schlutius, adding, “Together with our team, we will launch our new eM4 Twin and Single wallbox generation, which is compliant with German calibration law, as well as our new SCHUKO series as planned. Our operations continue to run as normal and without any restrictions. Debtor-in-possession proceedings provide a legal framework within which we can take the necessary restructuring measures while maintaining business operations. The wages and salaries of our 550 or so employees are guaranteed.”

#### **Political and global economic background**

State-funded home charger grants led to an unprecedented boom in that segment in 2021 and 2022. However, the exorbitant increase in demand in those two

#### **About PLUTA**

PLUTA assists companies facing legal and financial challenges. The firm provides support for reorganisations and transactions and helps companies to restructure and maintain their operations in crisis and insolvency situations. If necessary, PLUTA restructuring experts may also assume leadership roles in other businesses. Since the company was founded in 1982, PLUTA has constantly grown and today has a staff of approximately 500 employees in Germany, Spain and Italy. More than 290 business and management experts, attorneys, business lawyers, tax consultants, public auditors, certified accountants, economists, banking and bookkeeping experts, engineers and insolvency administration specialists, many with multiple qualifications, ensure practicable and economically sound solutions. PLUTA is one of the top restructuring companies, as demonstrated by rankings and awards from INDat, JUVE, The Legal 500, Who's Who Legal, brand eins, Wirtschaftswoche and Focus. Further information is available at [www.pluta.net](http://www.pluta.net).

## Press Release

years has now led to oversupply in the market.

Moreover, national and European politicians and the general public have shifted their attention on account of the war in Europe – away from electromobility and towards the use of photovoltaics for zero-emission power generation and heat pumps for zero-emission energy consumption. As a result, many customers have reduced, cancelled or postponed their orders of chargers.

“Although we have been negatively affected by the current shift in political priorities, we remain committed to our mission that e-mobility is making an important contribution to the energy transition. Therefore, ABL’s approach is still unreservedly viable for the future,” continued Dr Stefan Schlutius.

### Transformation outlook and strategic focus

As part of the restructuring efforts taken to date, ABL has worked together with a consultancy to develop a sustainable strategic plan that will allow the business to respond to the market development, which has been slowed down by the negative consequences of the boom in state grants. The debtor-in-possession proceedings underway are part of this strategy and are intended to ensure the company is restructured for the long term. In its product strategy, ABL is now placing an increased focus on the Operated Charging segment – highly intelligent charging infrastructure for the commercial and public sector that is compliant with German calibration law. In May, the manufacturer successfully launched the eM4 Twin wallbox, its new charging station for companies, hotels, the

## Press Release

housing industry and car parks, in this context. The eM4 Single wallbox, the next smart charging station in the new ABL e-mobility product generation, is set to follow this year.

Debtor-in-possession proceedings are in-court restructuring proceedings to rescue and rehabilitate financially distressed companies. Management at ABL will remain in charge and guide the company through the proceedings itself with support from the restructuring experts at PLUTA. In such proceedings, the court appoints a provisional insolvency monitor, who oversees the process in the interests of the creditors. Attorney Mr Michael Wirth of law firm Dr. Schmitt & Kollegen has been appointed provisional insolvency monitor for ABL.

Dr Maximilian Pluta and Mr Daniel Barth are supporting ABL as general agents. The PLUTA team also includes Mr Ludwig Stern, Mr Holger Christian Buehler and Mr Peter Roeger.
