15 January 2025 · Stuttgart, Germany · Business Area: Restructuring

Faced with economic challenges, Nafz Holzhaus GmbH based in Horb am Neckar has initiated debtor-in-possession proceedings with the aim of ensuring its future viability. Natural living spaces

Nafz Holzhaus GmbH was founded by brothers Sebastian and Lukas Nafz in 2013. As a general contractor, it offers solutions promoting healthy living environments and natural living spaces in the form of turnkey buildings. The team has a great wealth of experience in all service phases for everything from extensions and serial retrofits through to the planning and development of houses, apartment buildings and complex structures.

Nafz Holzhaus GmbH has had to file for insolvency due to the persistently challenging macroeconomic situation. Players in the construction industry were again reticent to buy and invest in 2024 on account of the high inflation of previous years and increased interest rates and build costs. Many potential long-term investments are being delayed because of these economic uncertainties. This has led to a noticeable decrease in new business for Nafz, which has directly impacted the order position and sales performance of this growth-oriented company.

The company believes it has good prospects for overcoming the economic challenges. Management is already working on a comprehensive restructuring plan that will include financial stabilisation initiatives as well as measures aimed at increasing efficiency and adapting to the market. During the restructuring, quality will still be a priority and the company will maintain its standards without exception.

Customers and business partners supportive of the process

Our goal is to continue building a lasting relationship with our partners in the region and strengthen our network."

Debtor-in-possession proceedings are in-court restructuring proceedings to rescue and rehabilitate financially distressed companies. The company concerned is allowed to manage the restructuring process itself, supervised by an insolvency monitor and supported by restructuring experts with relevant experience in this field.
