# Restructuring Experts see good Future Prospects for the Hock Group

1 July 2016 · Business Area: Insolvency Administration

Following the decision taken on 1 July 2016, the competent local courts have opened insolvency proceedings as planned for the companies in the Hock Group. The insolvency administrators are continuing the full scope of business activities performed by the six operational Hock companies and see good prospects for the supplier of parts to the car and electrical industries. At the same time, the restructuring experts Michael Pluta, Dr Stephan Thiemann, Stephan Ammann and Florian Schiller from the law firm PLUTA Rechtsanwalts GmbH together with Dr Jan Markus Plathner from Brinkmann & Partner are continuing to restructure the Hock companies and are currently holding promising talks with prospective investors. The insolvency administrators have commissioned the hww team set up around the expert Burkhard Jung to coordinate the M&A process. The insolvency administrators are aiming to achieve a long-term solution for all the companies and employees.

Funding for the companies is ensured. Despite the ongoing proceedings, the administrators and their teams succeeded in keeping nearly all the important customers. All the deliveries to customers will be made on time. Thanks to the positive order situation and the support from the suppliers and customers alike, none of the staff had to be laid off. Individual companies are even making a point of employing staff at the moment.
